ORDERS OF THE DAY · WAKE ALARM

SHOWER CODE

Scan it in the morning to stop the alarm.

Cut along the dashed line.

WHERE	Tape it next to the shower, at eye level, facing the door.
DRY	Put it in a plastic sleeve or cover it with wide clear tape.
LIGHT	Turn the bathroom light on before you scan.
LOST IT	Print this page again. The same code keeps working.

Away from home, or the code won't read? The alarm screen also takes a typed sentence.
